Subject: Food Web Meeting Availability

Here are the days Bruce is not available for a food web model meeting. I don't remember exactly where we left off last week, but we could target Nov. 1st or 2nd if that meeting is in Portland to hold a food web model meeting (Bruce may have trouble traveling up, but I can check). Burt, what is your availability like? In any case, we should get something on the calendar fast before it becomes more difficult to schedule. Also, are we still meeting October 11th in the afternoon for a food web "check in" meeting to set the objectives?

Bruce,

We are trying to set up a food web model meeting soon. Could you send me your availability for the rest of the month (generally) and into the first part of Nov.?

Thanks,

Jennifer
